10 Million Keystroke Life

EasyKey-2 is a sleek full-size multimedia wired keyboard. The keyboard features its bright shortcut keys and necessary numerical keys for multiple uses added for the user's convenience. Designated keys for email, search, refresh and favourites make the usage very convenient. Additional designated keys for volume, mute, my computer, calculator, sleep and power allows you to save maximum amount of time. It is a life saver for people who work on their computers for hours together. You do not have to worry about dying battery or continuously failing Bluetooth connection. Simply plug the wire in and start using it with any hassle. EasyKey-2 is a long-lasting keyboard with 10 million keystroke life. The keys are very soft and silent which means you can work without the annoying sound of hard key hits.
