

## SPLICE TRAY

Splice trays are designed to safely splice 12 or 24 individual fibres, which can be installed in rackmount patch panels, wall mount enclosures, terminal boxes or distribution units. Splice trays provide security for fusion splicing and can be used with different cables.

### FEATURES

- Holds up to 12 or 24 heat-shrink splice protectors
- 250µm, 600µm or up to 900µm buffered fibres
- Accommodates 40-45mm heat shrinks
- Stackable with individual access available to each splice tray
- Incorporated clamp to secure fibres on entry and exit
- 3 x Position mountable holes or adhesive pads
- Transparent lid

### APPLICATION

- Fibre management
- Internal and external use
- Wall boxes
- Patch panels

### SPECIFICATIONS

Material – body	ABS Grey RAL7044
Material – lid	PVC Transparent
