DYNAMIX MTP trunk cable assemblies allow for rapid deployment of high-density fibre links in a single cable assembly for applications such as data centres. The trunk cable assemblies use specialised small diameter cable to optimize cable pathway space and reduce installation time. They are designed for use with modular MTP solutions such as cassettes, panels and fan-outs. All DYNAMIX MTP products are factory terminated and tested to deliver optimum optical performance and reliability.

### FEATURES

- MTP connectors - 12 core
- Rapid deployment solution that minimizes installation time and cost
- Takes up less space and allows greater air flow for cooling
- Backwards compatible with existing MPO installations
- Factory terminated & tested
- 10G fibre channel compliant
- Infiniband compliant
- Connectors are compliant with IEC-61754-7
- Cable jacket is compliant with IEC-60332 (LSZH)
- Meets or exceeds TIA/EIA-568-B.3 and ISO/IEC 11801
- Lifetime warranty

**CUSTOM LENGTHS AVAILABLE ON REQUEST**
