# Magnetic CF Express Type B Card Reader (S1244B)

USB-C 10Gbps. Supports Android, iPhone 16/15 Pro and Pro Max ProRes

### Description:

The UNITEK Magnetic CF Express Type B Card Reader is designed for seamless use with the iPhone 16/15 Pro and Pro Max during ProRes filming or Android devices. Featuring MagSafe technology and comes with a magnetic ring, it securely attaches to your device for convenient access. With a USB-C 10Gbps connection, this card reader enables high-speed data transfer and offers plug-and-play functionality for effortless use. Ideal for professionals looking to enhance their filming workflow.

### Product Features:

- **Magnetic Aluminium Enclosure:** Designed to perfectly fit with MagSafe, this enclosure prevents the card reader from falling off the iPhone 16/15 Pro models, providing strong magnetic suction with a built-in magnet structure.
- **Direct Storage of ProRes Video:** UNITEK Magnetic CF Express Type B Card Reader allows the iPhone 16/15 Pro and Pro Max to record 4K@60Hz videos in ProRes directly to CF Express Type B Media.
- **10Gbps Transmission Speed:** This Magnetic CF Express Type B Card Reader supports a USB-C output interface with a transfer speed of up to 10Gbps.
- **Wide Compatibility:** Compatible not only with iPhones but also with any USB-C recording-capable camera. It doubles as a card reader for offloading photos and videos.
- **Reliable Performance:** Features a high-performance controller IC chipset that supports UASP and TRIM, optimizing speed and prolonging the lifespan of the CF Express Type B card.
- **100W Power Delivery Pass-through:** UNITEK Magnetic CF Express Type B Card Reader comes with an extra USB-C port to charge the Android devices/ iPhone 16/15 Pro and Pro Max via a power bank or adapter, with support for up to 100W.
