4 Bay RAID External Hard Drive Enclosure (S1301AGY)
Supports 8 RAID modes. With Cooling Fan for 2.5"/3.5" SATA HDD/SSD.

Description:

UNITEK 4-Bay RAID External Hard Drive Enclosure supports up to 80TB of external storage, making it perfect for home and office use. Its user-friendly PUSH design allows for easy installation and replacement of hard drives. Compatible with both 2.5" and 3.5" HDDs/SSDs, this enclosure maximizes drive potential with versatile RAID options.

Product Features:

- **Supports 8 RAID Modes:** It supports RAID 0, 1, 3, 5, 10, CLONE modes. You can optimize and simplify your workflow by choosing a suitable RAID configuration. Additionally, you can select hardware RAID for easy setup without downloading any applications. It also supports JBOD (merge as one bigger drive) and PM (Normal).

- **Support both 2.5"/ 3.5" SATA HDD/SSD*:** UNITEK 4-Bay RAID External Hard Drive accommodates both 2.5" and 3.5" SATA HDDs/SSDs, making it convenient for users to back up and access data. It includes two removable trays for easy installation and replacement of both desktop and portable drives. Two indicator lights allow you to monitor the status of your hard drives.

- **Up to 5Gbps Data Transfer:** This enclosure features a USB 5Gbps interface for connecting peripheral devices, while the eSATA interface supports up to 3Gbps.

- **Sleek Aluminum Design with Silent Cooling:** UNITEK 4-Bay RAID External Hard Drive features a stylish aluminum-alloy shell and an intelligent temperature control fan for optimal cooling with minimal noise. The fan adjusts its speed based on the hard drive's temperature, while front and rear cooling holes ensure efficient heat dissipation, keeping your drives cool during extended use.
*For 2.5" HDD/SSD, please install the mounting screw included in our Screwdriver Kit.
