2 Bay External Hard Drive Enclosure (S1308A)

Supports both 2.5"/3.5" SATA HDD/SSD, Excellent Heat Dissipation

Description:

UNITEK 2-Bay SATA Enclosure is the perfect solution for those in need of a reliable and stable storage system. With up to 40TB storage capacity, this enclosure can meet a variety of work requirements

Product Features:

- **Compatible with 2.5"/ 3.5" SATA HDD/SSD*:** UNITEK 2 Bay SATA Enclosure supports both SATA 3.5" and 2.5" HDD/SSD*. It is convenience for end customer to backup and access the valuable data from any SATA HDD/SSD drive.
- **Excellent Heat Dissipation:** Thanks for the cooling fan and aluminum alloy housing, it has good heat dissipation performance and provide stable usage operation.
- **Triple Protection Power Supply:** It supports overcurrent protection, short-circuit protection, and overvoltage protection. It can prevent disruption and reduce the risk for data loss.
- **Easy to Use:** No screw is needed for 3.5" HDD/SSD installation and just need to insert the HDD/SSD into the tray and it is ready to use. No driver is needed.*
- *If you are installing a 2.5" HDD/ SSD, please install the mounting screw included in our Screwdriver kit.
