Supports 4 RAID modes, Excellent Heat Dissipation

Description:

UNITEK 2-Bay SATA Enclosure is the perfect solution for those in need of a reliable and stable storage system. With up to 40TB storage capacity, this enclosure can meet a variety of work requirements

Product Features:

- **Supports 4 RAID Modes:** It supports RAID 0 to improve performance for reading and writing data, and RAID 1 for disk mirroring to ensure that there is at least one exact copy of the data at any given time. It also supports JBOD (merge as one bigger drive) and PM (Normal).
- **Support both 2.5"/ 3.5" SATA HDD/SSD* :** It does not only support SATA 3.5 inch HDD/SSD, but also 2.5 inch HDD/SSD*. It is convenience for end customer to backup and access the valuable data from any 2.5" / 3.5" SATA HDD/SSD drive.
- **Faster Transfer Speed:** It supports 10Gbps for S1308C and 5Gbps for S1308B, enabling fast data transfer and backup
- **Excellent Heat Dissipation :** Thanks for super strong cooling fan and aluminum alloy housing, it has excellent heat dissipation and provide stable usage operation.
- **Triple Protection Power Supply :** It supports overcurrent protection, short-circuit protection, and overvoltage protection. It can prevent disruption and reduce the risk for data loss.
- **Easy to Use :** No screw is needed for 3.5" HDD/SSD installation and just need to insert the HDD/SSD into the tray and it is ready to use. No driver is needed*.
- *If you are installing a 2.5" HDD/SSD, please install the mounting screw included in our Screwdriver Kit.
