Description:

Introducing UNITEK 4K HDMI Splitter 1 In 16 Out. Seamlessly duplicate a single HDMI input to 16 identical outputs. Experience exceptional video and audio quality without loss, making it ideal for presentations, events, and multi-screen configurations. Enjoy vibrant 4K resolution and reliable performance, ensuring your content shines across multiple displays!

Product Features:

- **Mirror 4K Contents to 16 Screens:** UNITEK 4K HDMI Splitter 1 In 16 Out delivers stunning resolutions of 4K@30Hz, 2K@60Hz, 1080p@60Hz, 720p@60Hz, and 480p@60Hz. Compatible with HDMI 1.4 and earlier versions, it also supports HDCP 1.4a for seamless connectivity.
- **Wide Compatibility:** This 4K Powered HDMI Splitter is compatible with most devices featuring a standard HDMI interface. Input options include computers, Xbox One, PS3, PS4 Pro, Blu-ray players, Roku, and more. Output to 4K TVs and monitors ensures a high-quality viewing experience.
- **Cascading Capability:** UNITEK 4K HDMI Splitter 1 In 16 Out supports connecting additional splitters, allowing you to easily expand the number of monitors.
- **Note:**
 - 1) Not compatible with HDMI 2.0/2.1 device inputs.
 - 2) When using standard 26 AWG HDMI cables:
 - a) Supports input transmission distance of up to 15 meters and output transmission distances of up to 15 meters for resolutions up to 1080P.
 - b) Supports input transmission distance of up to 10 meters and output transmission distances of up to 15 meters for 4K resolution.
