8 Zone, 13 Source

The AX-1250 features 6 powered zones delivering 110 Watts per zone with 2 independent preamp zones. There are 12 digital/analogue sources. USB (for configuration), RS232, IR BUS and Ethernet connectivity, 10 buffered IR outputs, 2 lit doorbell compatible triggers, individual amp On's and keypad connections to name a few. Simply add more 1250 amplifiers to expand up to 96 rooms (via network expansion)

Endless Music

Use Airplay to stream your music anywhere you have Wi-Fi in your home or office and an Alexia skill enables Voice Control.

Unrivalled Control

The **FREE** app (iOS and Android) auto discovers the Amplifier so there is no complex setup. Further customization can be achieved using the amplifiers internal webpage which provides you to configure the system the way you like it.

Audio Control

Adding an AX-AMM Media Manager provides internet streaming allowing playback from thousands of internet radio stations from TuneIn Radio, listen to Spotify, Tidal, Pandora (USA only) or from your mobile device, even from network attached storage, all controlled by the free auto discovery app (iOS and Android) or keypads that put you in control.

Prepare to be spellbound in as many rooms as you need.

*An internet connection is required for the Clock, Spotify connect, TuneIn, Tidal, Pandora and any future Internet streaming services. For the best experience use premium services. ISP charges may apply. Future services may be added. Additional charges may apply to activate these features.
