**Description:**

UNITEK Ultra Stream 8K HDMI Extension cable is an upgraded version of the 4K High Speed HDMI Extension Cable (Y-C166K). This HDMI Extension Cable is durable and supports transmitting data up to 8K@60Hz or 4K@120Hz.

**Product Features:**

- **Ultra High-Speed Cable:** UNITEK 8K HDMI Extension Cable supports Ultra-fast 48Gbps data transmission and supports resolutions up to 7680 x 4320, with refresh rate up to 120Hz (4K resolution). This HDMI extension cable also supports dynamic HDR, providing users with the smooth visual experience when playing games, watching movies or even projecting images on screen.
- **Plug and Play:** Easy connection with no drivers required. UNITEK 8K HDMI Extension Cable makes display-connection easy, and supports Mirror/ Extended modes without signal loss.
- **Built to Last:** Durable with gold-plated connectors and high-quality materials, all providing users with reliable and maximum performance.
- **Widely Compatible:** Wide compatibility across a broad range of HDMI-enabled devices. This 8K HDMI male to female extension cable is compatible with HD Television, TV Stick, Streaming media players, Blue-ray DVD player, Gaming Consoles, Satellite Box, AV receivers, TV Box, Boxee, Xbox360, Xbox One S, PS5, PS4, PS3, PSVR, Nintendo Wii U, Oculus Rift VR headset, windows 10 PC stick, wall-mounted TV, HDMI Selector Box, PC, etc.
- To ensure maximum 8K@60Hz/ 4K120Hz performance, please take note of below:
  - a) Always connect a 8K HDMI cable with 30AWG
  - b) For 0.5M – 2M versions, the maximum length of the connected HDMI cable is 2M.
  - c) For 3M HDMI extension cable, the maximum length of the connected HDMI cable is 1M.
