and creative work

Offering a variety of models, the CPB series CPU holder adopts a brand new structural system –that features stability and easy set-up.

CPB-26R is exclusively made for the e-sport area. With its RGB lighting and strong load-bearing capacity, it contributes to better gaming experiences.

CPB-26 is suitable for both working and entertaining scenarios, and its clever design brings next-level cooling to your PC.

CPB-25 provides an affordable price and a compact package, not to mention its outstanding stability.

Together we're hoping to introduce better CPU holders to diversify your product line and bring you profits!

26/26R only
