uHUB S7+ 7-in-1 USB-C Hub (H1335A)

With Three USB-C 10Gbps Ports and 4 USB-A 5 Gbps Ports. External DC Power Supply.

Description: UNITEK uHUB S7+ 7-in-1 USB-C Hub is engineered for reliability, speed, and seamless connectivity. Featuring a sleek anodized aluminum alloy casing, it combines corrosion resistance with superior heat dissipation to ensure stable performance even under heavy workloads. It is ideal for a variety of environments, including industrial settings, offices, laboratories, and educational institutions.

Product Features:

- **Data Transfer via USB-C:** Supports 3 ports with 10Gbps USB-C for ultra-fast file transfers, significantly improving efficiency with large files. It is backward compatible with USB 5Gbps and below, ensuring broad device compatibility. The reversible plug design allows for hassle-free connections.

- **Data Transfer via USB-A:** UNITEK uHUB S7+ 7-in-1 USB-C Hub supports 4 ports with 5Gbps USB-A speeds for external HDDs, flash drives, and other high-speed storage devices. It is backward compatible with USB 2.0 and USB 1.1, making it perfect for keyboards, mice, and other low-speed peripherals.

- **External Power Supply:** This USB-C hub features an external 10W (5V2A) AC adapter, providing a maximum output of 10W from one of its ports for efficient device charging. It supports charging for smartphones, tablets, Bluetooth earphones, and other devices at up to 5V2A per port. This ensures stable data transfer and sufficient power for all connected devices, making it ideal for both home and office use.

- **LED Indicator:** A white LED indicator keeps you informed of the power status at all times.

- **Stable Operation:** The included external power adapter guarantees stable performance for high-power devices, such as external HDDs. With built-in reverse-current protection, this hub prevents backflow to upstream devices like computers, ensuring the safety and longevity of your equipment.
