

ActiveCool™
15W | **Cradleless Qi2 Certified**
Wireless Charger Mount

15°C Minimum Temperature

MagChill-Qi2

- Aluminum Alloy Radiator**
- Semiconductor Refrigeration Chip**
- Low Noise Cooling Fan**

Introducing MagChill-Qi2, the ultimate 15W MagSafe-compatible Charging Car Mount designed for unparalleled convenience and safety on the road. Featuring the world's first semiconductor refrigeration system, it rapidly cools mobile phones by up to 15 degrees during charging, effectively preventing overheating issues in hot car environments. But what sets MagChill-Qi2 apart is its Qi2 certification, ensuring compatibility with the latest Qi wireless charging standards for optimal performance and reliability. This means you can count on fast wireless charging at 15W max for a wide range of device, including iPhones. With N52 strong magnets and an anti-shake design, it offers secure mounting and stability on any terrain. Enhanced safety features include F.O.D (Foreign Body Detection) technology, protecting against over-charging and overheating caused by foreign, metallic objects. Its cradleless 360° rotation and universal compatibility provide unmatched flexibility for hands-free driving. Elevate your driving experience with MagChill-Qi2, keeping your devices cool, charged, and secure wherever you go.

15W MagSafe Compatible

MagChill-Qi2 MagSafe compatible wireless charging car mount aligns with your smartphone and charges your compatible devices at 15W lightning-fast speeds.

Qi2 Certified

MagChill-Qi2 proudly bears the official Qi2 certification, guaranteeing fast 15W wireless charging across iOS & Android devices as well as seamless compatibility with the latest Qi wireless charging standards, ensuring peak performance and unmatched reliability.

Enhanced Cooling Function

Our cutting-edge Magnetic Car Charger features the first-ever Semiconductor Refrigeration Cooling Function, keeping your device cool by up to 15C during charging. Drive with confidence in any climate as overheating becomes a thing of the past.

Secure Magnetic Alignment

Introducing MagChill-Qi2, featuring Quick Magnetic Alignment and an Anti-Shake Design for secure attachment and stability, providing a safer driving experience. Charge with confidence on the go.

FOD for more Safety

With our (FOD) Foreign Object Detection Function, you can trust that your device and mount are protected against potential charging hazards, ensuring a safe and reliable charging experience.

Charge Securely

The onboard safety chip inside MagChill-Qi2 provides overcurrent, overheat, over-voltage, and short-circuit protection so that you can charge with confidence.

360° Cradleless Design

The cradleless design allows you to set your music in portrait mode or use the navigation in landscape mode with ease.

Specifications:

- Input: 9V/3A,12V/2.5A (QC/PD)
- Wireless Charging Output: 5W/7.5W/10W/15W(MPP)
- Efficiency: 75-85%
- Charging Distance: ≤4mm
- Wireless Charge Frequency: 360KHz
- Refrigeration Power: 7W
- Fan Noise: ≤40dB
- Cable Length: 1.2m
- RF Output Power: ≤20dBm

Packaging Content:

MagChill-Qi2, USB-C to C Charging Cable, AC Vent Mount, Dashboard mount, Metal Ring plates, Metal Ring Positioning tool, 4pcs PVC Stickers, User Guide

Certifications:
