Description:

UNITEK SlimTrack Wired Optical Mouse is designed with a slim and ergonomic focus, features multi-functional scrolling, a stable wired connection, and high sensitivity performance. It provides an experience of 'long-lasting comfort, precision, and ease of use' for office workers, design enthusiasts, and everyday users, making every click and scroll a pleasure.

Product Features:

- **Slim and Comfortable:** UNITEK SlimTrack Wired Optical Mouse is designed for both right- and left-handed users, offering comfort and a compact profile that enhances your workspace without taking up much room.
- **Multi-Functional Scroll Wheel:** Enjoy smooth multi-directional scrolling for detailed tables or lengthy web pages. Switch to automatic scrolling mode by pressing the scroll wheel button, allowing you to control speed and direction with ease—enhancing your browsing efficiency.
- **Plug and Play:** With a 1.5-meter cable and USB-A interface, there's no need for charging or pairing. Just plug it in for zero signal delay and uninterrupted use.
- **High-Performance Optical Tracking:** Equipped with a 1600dpi high-precision sensor, it offers swift response and low latency. Just simply press DPI button to set your desired sensitivity setting, with 3 different DPI levels from 800, 1200 and 1600, meeting precision requirements in different scenarios.
- **Silent and Durable Click design:** The mute-click design on both buttons reduces noise by 90%, allowing you to work without disturbing others. This quiet mouse is built for longevity, with a scroll wheel that outlasts traditional plastic versions.
- **Wide Compatibility:** No driver installation required. Compatible with Windows 10/11, Linux, and macOS.
