Control method	Desktop Controller, One-Button Switch
Material / Colour	Aluminum Alloy / Space Grey

### Description:

This UNITEK USB 3.0 HDMI KVM Switch allows users to control two computers to share a single monitor using 4 USB 3.0 peripheral devices such as a keyboard, mouse, U disk, and printer. Users can switch quickly between two PCs with the push of a button. It's the perfect solution for keeping your workspace organized and boosting productivity.

### Product Features:

- **Maximize Workspace Efficiency:** The UNITEK USB 3.0 HDMI KVM Switch allows users to easily switch between two computers with a one-button switch or desktop controller, saving desk space and boosting productivity. When the KVM Switch is not connected to the desktop controller, users can still switch quickly between PCs with the press of a button.
- **4K Stunning Display:** This UNITEK 3.0 HDMI KVM Switch supports resolutions up to 4K@60Hz and is backward compatible with 2K@60Hz, 1080P, and lower resolutions. It also supports HDCP 2.3 and HDR, enhancing image quality with more vivid, realistic colors and greater detail.
- **Sharing 4 USB 3.0 Ports:** With the 4 USB 3.0 ports, the UNITEK USB 3.0 HDMI KVM Switch supports up to 5Gbps data transfer speed. Users can easily transfer data from a U disk or mobile hard disk to a computer. It enables faster file and data transfer, making work more convenient and efficient.
- **Wide Compatibility:** This UNITEK USB 3.0 HDMI KVM Switch supports Windows, Mac OS, and Linux systems. It is also compatible with a wide range of HDMI devices including PS5, PS4, PS3, Xbox, TV Box, PC, Laptop, Nintendo Switch, etc. This UNITEK HDMI Switch is also perfectly used in enterprises, offices, meeting rooms, and other educational applications.
- **Easy to Use:** Plug and play, with no drivers required.
