Human friendly

5Gbps DP KVM Switch (V1310A)

Switches Between Two Devices, Share 1 DP 8K@60Hz Display & 4 USB Ports.

Description:

This UNITEK USB 3.0 DP KVM Switch allows users to control two computers to share a single monitor using 4 USB 3.0 peripheral devices such as a keyboard, mouse, U disk, and printer. Users can switch quickly between two PCs with the push of a button. It's the perfect solution for keeping your workspace organized and boosting productivity.

Product Features:

- **Maximize Workspace Efficiency:** The UNITEK USB 3.0 DP KVM Switch allows users to easily switch between two computers with a one-button switch or desktop controller, saving desk space and boosting productivity. When the KVM Switch is not connected to the desktop controller, users can still switch quickly between PCs with the press of a button.

- **8K Ultra-clear Display:** This UNITEK 3.0 DP KVM Switch supports resolution up to 8K@60Hz and is backward compatible with 4K@60Hz, 2K@60Hz, 1080P, and lower resolutions. It allows users to enjoy an immersive viewing experience with clear pictures and high–quality videos.

- **Sharing 4 USB 3.0 Ports:** With the 4 USB 3.0 ports, the UNITEK USB 3.0 DP KVM Switch supports up to 5Gbps data transfer speed. Users can easily transfer data from a U disk or mobile hard disk to a computer. It enables faster file and data transfer, making work more convenient and efficient

- **Wide Compatibility:** This UNITEK USB 3.0 DP KVM switch supports Windows, Mac OS, and Linux systems. It is also compatible with most DP source devices and is perfectly used for use in enterprises, offices, meeting rooms, and other educational applications.

- **Easy to Use**: Plug and play, with no drivers required.
