Description:

UNITEK 4K HDMI/ USB-C Switch 4-in-1 Out connects up to four devices, such as gaming consoles, tablets, mobile phones, and laptops, to your TV or monitor using just one input port. Seamlessly switch between PC screens, movies, games, and TV shows without the hassle of plugging and unplugging HDMI cables. For example, you can connect a desktop PC (HDMI), a laptop (HDMI), a smartphone (USB-C), and an iPad (USB-C).

Product Features:

- 4K UHD Visual Feast:** The 4K HDMI/ USB-C Switch 4 In 1 Out features two HDMI sources and two USB-C (DP-ALT mode) interfaces, enabling four-input free switching for easy transitions between different signal sources. Supports resolutions up to 4K@60Hz, compliant with HDMI 2.0b/1.4 standards, and is compatible with HDCP 2.2/2.3 and HDCP 1.4. Supports HDR (HDR10/HDR10+/Dolby Vision/HLG); also supports Variable Refresh Rate (VRR), FreeSync, G-Sync, and ALLM.
- Rapid Source Switching:** UNITEK 4K HDMI/ USB-C Switch 4 In 1 Out supports the EDID **Quick Switch function** (Quick Switch Mode, EDID Memory), facilitating quicker signal source identification during multi-source switching. (Note: EDID retention feature is unavailable for HDCP-encrypted sources.)
- One-Touch Device Switching:** The select button on the 4K HDMI/USB-C Switch 4 In 1 Out allows you to switch among four devices at any time with a simple press. Four blue LED indicators clearly show which port is actively connected to your TV or monitor.
- Wide Compatibility:** UNITEK 4K HDMI/ USB-C Switch 4 In 1 Out is compatible with a wide range of HDMI and USB-C (DP-ALT mode) source devices, including PS5/4, Blu-ray players, Xbox, Nintendo Switch, PCs, laptops, iPads, mobile phones, and projectors. (Note: Full-feature USB-C and HDMI cables are NOT included.)
