

# 3.4A Car Charger with Lightning Coiled Cable

**Lightning Coiled Cable**

**USB Port**

**Compact Carbon Fiber Design**

Voltrip-i is a 3.4A car charger with a built-in Lightning cable and USB charging port that ensures you never run out of battery while driving. Its USB output is universal and can be used to charge any USB powered device. It protects your devices from over-charging and short-circuit. It is made from fireproof material which keeps your charger safe in the most adverse conditions.

## Features

- Its small body uses the least amount of space and makes room for other accessories.
- The modern carbon fiber design complements any car interior
- Forget your Lightning Connector charging cables at home, as this car charger features a coiled cable with Lightning Connector
- VolTrip-i supports all USB chargeable devices and devices with Lightning Connector
- The charging outputs adapt to your devices to provide the safest maximum charging output per port
- It protects your devices from over-charging and short-circuit.
